Professional Summary

International Business graduate with experience in warehouse operations, client-service documentation, consumer goods and independent trading. Works across stock control, sourcing, pricing and stakeholder coordination, and uses AI-assisted development to build practical tools for business operations.

Education

Universitas Padjadjaran | International Business | 2021-2025

GPA: 3.29/4.00 | 144 academic credits. Focus: international trade, supply chain, strategic management and market research.

Final-Year Thesis

Strategies for Securing and Enhancing the Competitiveness of the Local Ceramics Industry | 2025

- Examined trade compliance, consumer preferences and supply-chain constraints using an industry interview with a Villeroy & Boch APAC representative and secondary research.
- Applied PESTEL, SWOT, IFAS/EFAS and the IE matrix to assess competitive conditions and strategic options.
- Developed recommendations on local/regional sourcing, SNI and administrative coordination, product innovation and digital marketing.

Professional Experience

Research & Development, Coffee Division

Solera Pastry & Coffee | 2026-Present

Warehouse & Supply Chain Intern

PT Plymilindo Perdana | Tangerang | 2025-2026

- Supported inbound and outbound warehouse activities, verified stock movements and maintained inventory documentation.
- Checked stock records through periodic audits and coordinated with warehouse colleagues to reconcile discrepancies.
- Identified issues in warehouse layout and goods handling and proposed workflow improvements.

Marketing & Partnerships Intern

Balai Besar Keramik (BBK), Ministry of Industry, Indonesia | Bandung | Feb-Jun 2024

- Prepared client documentation for SNI certification, sample testing and equipment calibration in the Marketing and Cooperation division.
- Researched prospective industry clients, organized client information and activity reports, and supported business communication.
- Contributed ideas and designs for Instagram content on consultation, advocacy and education services.

Business & Management Experience

Owner & Head of Research and Development

Brochacho Holdings | Tangerang Selatan | 2025-Present

- Run product research, sourcing, procurement, production, quality checks and distribution for a consumer goods and beverage business.
- Calculate product costs and selling prices, coordinate suppliers and organize production and customer-service workflows.

Independent Trader, Smartphones & Electronics

Self-employed | Tangerang Selatan | 2021-Present

- Source and inspect devices, set prices, negotiate transactions and arrange delivery through Tokopedia, Shopee and personal networks.
- Handle customer enquiries and after-sales support alongside stock and margin decisions.

Manager

dCalmare

Core Skills

Inventory control, stock reconciliation, inbound/outbound documentation, sourcing, supplier coordination, product costing, pricing, market research and event operations.

Microsoft Excel, Word, PowerPoint and Google Workspace.

Independent Projects

LamarOS | 2026

- Built a private job-search workspace for verified vacancies, career evidence, resume variants, application kits and recruiter follow-ups.
- Implemented approval-based application workflows, audit records and encrypted storage. Local workflow tests passed; live integration verification remains pending.

Career Intelligence & CV Blaster Personal

- Developed vacancy normalization, duplicate checks and evidence-based role matching. Adapted an open-source CV application for Apple Silicon and prepared a 100-role dashboard with job-specific PDF/Word resume pairs.

Brochacho Operations Dashboard & Social HQ

- Built workflows for recipes, inventory, production, sales, finance, reconciliation, access controls and backups.
- Scoped Instagram, Threads, Facebook and Messenger content workflows. Meta integration setup remains blocked by business-portfolio association.

Solera Operations & Bookkeeping Platform | 2026

- Developed income/expense, product transaction, stock, equipment and reporting workflows, with cash/QRIS orders, authentication and QRIS parser checks.

Gstudio Photography Studio Platform

- Built booking, media and WhatsApp confirmation flows with session authentication and mobile interactions. Used Turso/libSQL for data, Vercel Blob for media and a Cloudflare Workers deployment workflow.

Kairos, Hermes & Information Automation

- Built AI workspace components and configured model routing, Docker-based VPS/home-server services, Tailscale, Cloudflare Access/Tunnel and self-hosted n8n.
- Built Git/Obsidian memory synchronization and a separate Python pipeline for TikTok metadata, media retrieval and transcription.

Leadership & Event Experience

Crowd Control Manager | Ciremai Music Festival 2023 | Aug-Sep 2023
Coordinated visitor flow for more than 5,000 attendees with security teams, organizers and vendors; the event concluded with no recorded incidents.

Facilitator | P Plus FEB Unpad / Discovery Bisnis Internasional | 2023
Supported and mentored new students during faculty orientation.

Creative Assistant | Garuda International Cup II | Jun-Jul 2022
Supported creative materials, event documentation and cross-division logistics, and communicated with international participants.

Deputy Technical Director | EFEST 2022, Economics Symposium | 2022
Coordinated technical requirements, vendors, equipment and the event rundown.

Technical Staff / Logistics Staff | Padjadjaran Educational Festival / FEB Awards | 2021
Supported event equipment readiness and logistics distribution in separate faculty activities.

Certifications & Languages

BNSP Export Document Preparation, LSP Ekspor Impor Internasional | Valid Jun 2024-Jun 2027.

ISO 9001:2015 Quality Management System Training, PT Plymilindo Perdana | Oct 2025.

Indonesian: native. English: fluent.

EF SET: 75/100 (C2). Unpad ELT: 540 (Mar 2025).

Additional Skills

Export documentation, HS codes, commercial invoices, packing lists, certificates of origin and customs procedures; ISO 9001:2015 QMS awareness.

Project-based technology: Python, TypeScript, SQL, React/Next.js, FastAPI, PostgreSQL/SQLite, Turso, Git, Docker, Linux, Tailscale, n8n and AI API integration.

Open to opportunities across Indonesia. Driving licences: SIM A and SIM C.
